

HARVEST FRUIT

Start by finding as many clay pots as possible. You will find them everywhere in the world and they come in all sizes, shapes, and colors. They will already be filled to the brim with sin and death soil. Don't worry in case the soil is lumpy and contains a few rocks.

Next take your Gospel seeds and plant them as deep and as best as you can.

Do not wait by the first pot that you have planted but go on to the others you find. NOTE: other cooks will follow you to water and cultivate what you have planted. You may, however, return to any pot as often as you like.

Patience is a key ingredient at this stage. This will enable you to wait and watch as God makes the seeds grow into Harvest Fruit for His Kingdom.

Special Helpful Hint: If you do not have the necessary Gospel Seeds ingredient, you may always find and obtain them completely free of charge from God's Recipe Book—bought and paid for by our Sponsor, Jesus Christ.

The Father will receive your call when you tell Him that you are calling in His Son Jesus' name. You will immediately be given tried and true recipes, which will be personally delivered by the Holy Spirit courier. The only requirement is that you must have a current repentant address for the order to be completed and delivered.
